**CARLETON TECHNOLOGIES
COMPONENT MAINTENANCE MANUAL (CMM) DISTRIBUTION POLICY**

Carleton Technologies designs, manufactures and markets safety equipment under contract and Product Support Agreements (PSA) for various aircraft manufacturers. The supply of safety equipment, support services and technical data are requirements under the terms of those PSAs.

Therefore, the following are entitled to Carleton CMMs:

- Aircraft manufacturers and aircraft covered by the PSA.*
- Aircraft operators having Carleton components installed on aircraft they own and operate.*
- Repair stations owned by an operator. Eligibility is limited to aircraft owned by the parent fleet.*

INTRODUCTION

This index of publications details a listing of current maintenance manuals published in support of commercial aircraft hardware manufactured by Carleton Technologies Inc. of Orchard Park, New York.

The index is prepared in accordance with Air Transportation Association (ATA) Specification iSpec 2100 (formerly ATA 100).

Questions or inquiries can be directed to:

Carleton Technologies Inc.
